RESEARCH INTERESTS

I am currently a 4th-year Ph.D. candidate at Zhejiang University, under the co-supervision of Prof. Yingcai Wu and Prof. Hui Zhang. My research revolves around the intersection of computer and sports science. My work encompasses Sports Visual Analytics, Immersive Analytics, and Human-Computer Interaction. Presently, I am exploring visualizations and interactions for sports videos in an immersive environment, aiming to enhance users' understanding of games. Additionally, I am conducting research on multi-agent reinforcement learning and technical-tactical analysis to improve players' performance.
